Work Experience

GeoIQ Pvt. Ltd **Dec 2023 - Apr 2025**
Software Development Engineer 1 (Frontend) *Bengaluru, Karnataka, India*

- Developed fast, scalable, and high-quality product code using **Next.JS**, **React.JS**, **TypeScript**, **JavaScript**, **Tailwind**, **HTML**, **CSS**, and **React Query**, ensuring a seamless user experience.
- Actively contributed to an in-house **React UI component library** by building reusable components, reducing development time by **15%** and saving costs by eliminating reliance on third-party libraries. **Tailwind**, **ShadCN components**, and **Storybook**, adhering to the in-house style guide for consistency.
- Enhanced and optimized **React**, **Next.js**, **Remix**, and **React Native** applications, integrating **RESTful APIs** to improve data handling and overall functionality.
- Collaborated with cross-functional teams, including engineers and designers, to identify user pain points and implement effective, user-centered solutions.
- Conducted thorough **code reviews** and maintained comprehensive documentation, ensuring high code quality and performance standards throughout the development lifecycle.

ZenDynamix Pvt. Ltd **March 2022 - Nov 2023**
Software Developer (Frontend) *Bengaluru, Karnataka, India*

- Developed **UI components** using React and TypeScript, enhancing user experience and application performance.
- Implemented **state management** with Redux and React Query, optimizing data flow and responsiveness.
- Refactored legacy code for improved readability and maintainability.
- **Migrated** the design framework from MaterialUI to PrimeReact for a cohesive, responsive interface.

Technical Skills

Programming Languages: *JavaScript (ES6+)*, *TypeScript*, *HTML5*, *CSS*
Frontend Development: *ReactJS*, *React Native*, *Next.js*, *Remix*, *Redux*, *React Query*, *Tailwind CSS*, proficient in debugging, performance optimization, and creating cross-browser compliant HTML/CSS.
Version Control: *Git*, *GitHub*, *GitLab*, *BitBucket*
Other Skills: *Adobe Photoshop*, *Adobe Premiere Pro*, familiar with *Storybook* for UI component development.

Projects

Retail IQ *React, React Query, Zustand*

- Developed Site Report feature for clear retail insights.
- Migrated state logic to React Query for better performance.
- Removed dead code to cut load times and speed up the app.
- Reviewed and refactored code for maintainability.

GeoIQ Web Kit – UI Components Library *React, TypeScript, Storybook*

- Built reusable UI components from designs across projects.
- Ensured consistency and flexibility in component behavior.
- Improved frontend efficiency via team collaboration.

Retail IQ – MarketConnect (Android) *React Native*

- Bootstrapped the app and made key tech stack decisions.
- Built RN UI components and implemented screens.
- Unified UX and maintained visual consistency app-wide.

Education

GH BCA College, Karnataka University Dharwad **June 2018 – Sept 2021**
Bachelor of Computer Applications (BCA) - 70% *Haveri, Karnataka*
